Jim Main set off from his house yesterday morning on his bike for a 404mile charity cycle. He was entered in the London marathon this Sunday but on doctors orders he has had to have a change of plan! So instead he is cycling all the way down to London in 4 days, just in time to support all the runners on Sunday.

All of this is in aid of Make-A-Wish Foundation and Dumfries and Galloway Blood Bikes. Both of these charities do great work! The target is to raise £3000.00 and split it between them both.

Jim would be grateful if you could spare a couple of ££ as a donation. The full story or to donate can be found

Good luck Jim from all of us at APD!!
