

## Fresh New Faces

This year we have taken on not one but two apprentices as there was such a huge influx of applications to our facebook advert. We'd like to welcome Max Hughes and Nathan Brown to the APD family.

Both lads started their electrical engineering apprenticeship with us back in August but have been at college for the last 5 weeks. This week is their first in the workshop at Newbie. They are getting to know everyone, see how we operate and gaining some valuable hands on experience.

We hope they'll settle in to the family here and enjoy their time with us. Good luck lads!
